

A Sample of Summer Programs Recommended by WAM for Summer 2024

Any STEM program will be considered for WAM scholarships. Students **must apply for the summer program** and be accepted in order to be eligible for the scholarships. The WAM scholarships will be given directly to the program to go towards the student's tuition. Most programs will defer payment of fees until WAM scholarships have been awarded at M³ in May. If a program has an earlier deadline for payment or requires a deposit, it is the responsibility of the student's guardian to make that payment/deposit. Some programs also have their own scholarship programs. **Due to limited scholarship funding, only partial scholarships may be available for certain programs.**
